Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I listen to your show faithfully and would like your advice concerning my 1991 Silverado with a 350 V8 and automatic transmission. My truck has been sort of hovering in one gear longer than normal and reving up very high before shifting into the next gear much harder than usual. Another issue is when I shift from neutral to drive it engages very hard. I checked the transmission fluid, and it was a little low but bright red and I'm wondering if anything else simple could be the problem. Also, one more symptom is that when I'm coasting my torque converter is slipping and feels as though I'm in neutral because the engine just revs and only feel a pull of the motor once my RPM's match my speed. I've learned a lot from your advice.

Dave in Canton Texas

Dear Dave,

I think I have an idea that you can do at home yourself. In older GM vehicles before days of electronic shift control there was a cable running from the throttle body down to the transmission. This cable was used to change the internal pressure of the transmission to improve performance and longevity. When under heavy throttle the transmission needs more pressure, so the clutches won't slip and under light throttle less pressure for a smooth shift. It sounds like your cable is out of adjustment. Follow the service manual procedures for adjustment and hopefully your problem will be solved.

Take care, the Motor Medics

Dear Motor Medics,

I have a question about my door chime. It's so loud it is about to drive me out of the car. It's a 2004 Chevrolet Monte Carlo. I have 90,000 miles on the car and as long as I remember it has been this loud. The chime seems to come from the driver's side door speaker. Is that where it comes from or is there a separate speaker in there for the chime. Is there a way to adjust the volume on the speaker like a radio or a way to disconnect it so I don't go crazy? Any help you can provide would be greatly appreciated.

Danielle in Manhattan Kansas

Dear Danielle,

We're sorry your car is so uncomfortable, but we may have a fix for you. You are correct in thinking the chime comes from the driver's door speaker. The door chime is fed into the radio by the body control module and can override the radio in order to warn you when needed. As the operator of the vehicle there is no way that you can adjust the volume, but the professionals can do it fairly easily. There should be a reprogram option available from dealers and service providers who have a factory type programing system that will cut the volume of the chime considerably and make it more driver friendly. The procedure takes about 30 minutes to perform and should not break the budget. Thanks for the question.

Take care, the Motor Medics

The Countdown Has Begun

Brandon
Water Smarter

The countdown has begun for the City of Brandon to enjoy plentiful,high quality, softened drinking water. A groundbreaking event on August 9th marked the beginning of construction on the City's reverse osmosis (R/O) water treatment plant expansion in Aspen Park.

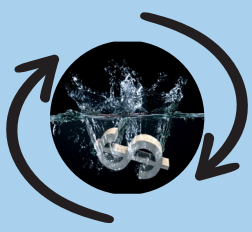
2x The Construction | 2x Capacity with Expansion

Construction is scheduled to be complete in November 2024. At that time, residents and businesses in Brandon will enjoy softened water that should be easier on the appliances and plumbing fixtures. R/O is a chemical free treatment method that will provide high quality water. The expansion will also double the capacity of the water treatment plant.

The Bid | $24,973,800

The bid for the reverse osmosis water treatment plant expansion project came in at $24,973,800. The South Dakota Department of Agriculture and Natural Resources granted the City of Brandon $7,467,900 in American Rescue Plan Act funding. The remainder will be funded by a water surcharge revenue bond.

The Investment | High Quality + Plentiful Water



This project is an investment for today's and tomorrow's residents. Thank you to the Brandon Valley Area Chamber of Commerce for hosting the groundbreaking celebration! Cheers to high quality and more plentiful water!

Official Rules

1. The contest is open to anyone except employees the Brandon Valley Trader/Journal and their immediate families.
2. A $20 certificate will be given to the contestant picking the most games correct each week and a $5 certificate to the runner up. In case of a tie, the contestant closest to the total points scored for the tie-breaker game (Game #14) will be declared the winner.
3. A $50 certificate will be paid to one winner with all the correct picks. In case of a tie, the tie-breaker will determine the winner by the flip of a coin.
4. Decisions of the judges will be final and all entries become the property of the Brandon Valley Trader/Journal.
5. All entrants must use the official blank listed on this page. Your winning selections must coordinate with the game number located in each advertisement. Just circle the winning team, drop it off at our office by 5pm on Fridays or have your entry postmarked by Friday of the same week of the ad.
6. The 11-week contest is from Aug. 24 thru Nov. 2, 2021.
7. Any questions? Please call (605)582-9999
