City of Brandon Residents

FLUSHING NOTICE

The City of Brandon will be flushing water mains from Monday, May 23rd through mid-June 2022 or until flushing is complete.

Flushing hydrants is needed to ensure they are in proper working condition for fire protection and to remove any mineral deposits that may have accumulated in the water mains.

Residents should be advised that the change in water flow patterns resulting from hydrant flushing may stir up mineral deposits in home services.

During hydrant flushing, it is not uncommon for residents to periodically experience discolored water, pressure change, and/or an increased chlorine odor. Homeowners are advised to exercise care in their laundry operations and to check the water for clarity before use.

Motorists also are advised to stay clear of the streams of water coming from the hydrants.

Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,
I've got a noise under my hood that despite several attempts at repair persists. The vehicle is a 2004 Chevy Tahoe with the 5.3 engine and upon startup it will chirp from the engine drive belts for about 15 minutes no matter what the conditions. We have tried to repair this by switching the belt which resolved it for about a week. The next thing we tried was to replace the tensioner in hopes that the belt tension was incorrect. After the tensioner replacement, it lasted another week then was back to chirping again. Have you had this problem before and if so what kind of things have you done to stop the noise? My mechanic suggests trying a Gatorback belt. What is a Gatorback belt, and do you think it may help?

Thank you, Daryl in Sheldon Iowa

Dear Daryl,
When we have belt squeaks, we look very closely at all of the rotating parts to make certain there is not a problem with alignment or wear that could be the root cause of the noise. We also check for proper tension and make sure the pulleys all have good bearings. With that all done we install a new belt and if it squeaks again soon after we sometimes use the Gatorback belt which is different in design in that it has grooves on both sides of the belt which can help to eliminate noise by providing a better gripping surface area.

Take care, the Motor Medics.

Coming in tomorrow's BRANDON VALLEY Journal

Last week's primary election was a lively one, and this week's *Brandon Valley Journal* brings you the details on how voting went at the local precincts.

With the discontinuation of the free summer lunch program, a Brandon congregation is stepping up to provide weekly meals for local youth.

Penny Paclik is parting ways with the Brandon Taco John's restaurant later this month. Learn more about what led to her decision and about the new owner.

You'll also learn more about Brandon's volunteer fire department, Automania and a Brandon woman who is in need of a kidney.

Journal editor Jill Meier took in the "big game" between t-ball teams, the Bears and the Hoosiers, last week. For some cute photos of these pint-sized players, check out this week's edition.

Plus, we've got the lowdown on how two Lady Lynx fared at the State AA golf tournament, on the weekly play of the Valley Rats, Legion Post 131 baseball, Sunday night's races at Huset's Speedway and report from Circuit's martial arts students.

If you find yourself asking, "I wonder what's going on ...?" It's time to subscribe to the *Brandon Valley Journal*! Give us a call at (605)582-9999 to subscribe today so you can be in the know.
