Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,
You guys make it easy for us when we need to repair our cars and I'm hoping you can shed a little light on a purchase question too. I have narrowed down my search to two vehicles that are relatively the same except that one is a Front-wheel drive while the other is All-wheel drive. The AWD drive vehicle has 10,000 more miles but has the extra feature, so it is priced the same. I don't see a lot of snowfalls in my area and until now have managed to get by every season with nothing more than a FWD car. If I go with the All-wheel drive system will fuel mileage suffer significantly, and will the overall maintenance cost be a lot higher?

David in Manhattan Kansas

Dear David,
You will have to make your own decision as you will be the one making the purchase but we can hopefully help you a bit. All-wheel drive vehicles get around better in the snow than their Front-wheel drive counterparts, but if you are in an area that does not see much snow or ice and they plow it quickly, do you really need it? The fuel mileage will be a little lower, there will be slightly faster tire wear, and there are more parts to wear out. While the Front-wheel drive is not as nimble in snow, a lot of people give that up for the savings they gain in other areas.

Take care, the Motor Medics.

Dear Motor Medics,
I recently purchased a 1997 Chevrolet Monte Carlo with about 130k miles on it equipped with the 3.1 engine. The car runs great, but when the engine is cold, I hear a very loud banging or tapping sound until the engine is thoroughly warmed up. The sound is not as pronounced when the temperature is warm outside although it is still there. I have consulted with a few people including GM techs who tell me that this engine is known for this cold start noise which is caused by piston slap and that this is considered normal. Is there something I should or could do to minimize this? Are any engine oil additives that would help this?

Thank you, Darrin in Brainerd Minnesota

Dear Darrin,
What these technicians have been telling you is correct. These engines tend to make noise upon a cold start, the colder the engine the louder the noise. Some people fear they are going to fly apart because they are so loud. With age they tend to become worse, but we can't recall one that has come apart because of it. As a mechanic and current owner of a vehicle with this engine I've tried everything I can in the way of engine oil additives and haven't found any that make even the slightest difference in the way it sounds so I've learned to live with it as many people with these cars have had to do.

BRANDON VALLEY HIGH SCHOOL

At the thermometer rises, so does Brandon's water usage. *Journal* writer Tom A. Savage explains why the city's water conservation program takes effort from all.

New businesses are popping up weekly in Brandon, and this week, the *Journal* gives you the low-down on them.

Although the Fourth of July is now in the books, we're putting the spotlight on the seasonal fireworks businesses that set up shop locally.

Julian Watson inked his future as a runner for the Nebraska Cornhusker's men's track and field team last week, and *Journal* editor Jill Meier was there to capture the milestone moment.

Plus, we've got features on BV's Little League championship night, the USAC races coming to Huset's Speedway and Ryan Hamilton, who is a pitcher for the Valley Rats amateur baseball team.

As always, we've got the weekly reports from the Brandon Police and Minnehaha County Sheriff's Department, obituaries, property notices and a whole lot more!

If you find yourself asking, "I wonder what's going on ...?" It's time to subscribe to the *Brandon Valley Journal*! Give us a call at 582-9999 to subscribe today so you can be in the know.
