# Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I want to know about drive by wire steering. I purchasing a new car with it and it has me concerned and wanting to know more before I buy as I don't know how it works or if it's safe. Does it really have no connection between the steering wheel and wheels? What if it quits working?

Bryan in Vandalia Missouri

Dear Bryan,

Drive-By-Wire has been around for more than a decade in many vehicles and is also used in aircraft. You could almost compare it to remote control where you command the action of a device remotely without actually being in physical connection to it. Electric Throttle Control is the most common and is used in most all cars and trucks on the road today but we are now seeing steering go this way due to autonomous cars and self-parking modes that are coming into the market. Throttles have at least two sensors for redundancy and if it fails, well, you just don't accelerate; if steering fails, not so good... Engineers have taken our safety into account and have designed the system so that there is a physical connection that is made whenever the electronics are not powered just in case there is a failure. This safety system was designed to prevent safety issues in the event of a failure. We suggest you get online and investigate further for your own piece of mind before you choose to purchase one.

Take care, The Motor Medics

Dear Motor Medics,

I listen to Under The Hood both here in the United States, North America, and when I'm in my second home in Central America in Costa Rica at my dive shop. You really Are Americas' Favorite Car-talk show. The signals a little weak there on my old Mazda Truck so I have to listen via internet. My question is about the Mazda. I need to find parts for it in the way of door trim. That little chrome piece is missing from the bottom of the side door glass and you can't get one here and they never sold this model in the U.S. What do I do?

Scott in Sioux Falls SD

Dear Scott,

Thanks for listening to the show way down there; maybe if you get a little higher up your radio will have better reception. As for the body parts, ouch. We get this question from many of our listeners who are not in the United States who drive vehicles only made in other parts of the world. You know because you own one but many folks don't know that a Mazda truck or a Ford truck or car made overseas is very different looking even though it may carry the same model name. As for parts, we know salvage yards there are not many so get online and see if you may find one across the pond in New Zealand or Australia. Good luck parts hunting.

Take care, The Motor Medics

# BRANDON VALLEY Journal

Friday, Aug. 20 at Brandon Valley High School. A light breakfast will be served in the commons from 6:30 to 7 a.m., followed by the 7 a.m. program in the Performing Arts Center.

Sharing the message this year is Trenton Bass with Game Plan 4 Hope. On Sept. 8, 2017, Bass suffered a serious and life-changing neck injury while playing football for Hills-Beaver Creek. He will share his story and how his faith has carried him through the hurdles of his recovery process and led to the organization of Game Plan 4 Hope, a non-profit that offers support to other individuals and families going through similar situations.

Tickets are \$10 each or \$75 for sponsorship of a table. Students are free, courtesy of event sponsors.

A band of brothers is leaving their footprint in the Brandon area one building endeavor at a time. Learn more about OdeCo and its many branches of business endeavors.

The Brandon City Council met after the July 4 holiday, and this week's *Journal* brings you multiple reports on the meeting's agenda items.

What's the status of the Maple-Park street corridor? This week's *Journal* brings you the latest information on the much-anticipated road project that will create another avenue for daily commuters to and from Sioux Falls.

Two Brandon congregations have joined forces to stage a Community Concert and Food Truck Night next week. The *Journal* brings you the story on what led to this joint endeavor.

Minnehaha County Commission was in session last week, and *Journal* correspondent Dave Baumeister lets you know the details. He also sat down last week with Minnehaha County State's Attorney Daniel Haggar for insight on how he's settling into his new role.

Brandon native Matt Jorgenson reflects on his new assignment as the CEO of Flandreau-based Cannabis Chem Lab.

Plus, we've got plenty of baseball action, including Post 131's week of action and photos from the Jacob Mulder Memorial Baseball Game between the Valley Rats and Renner Monarchs.

And if it's photos you like, we've got pictures from Valley Springs Booster Days celebration, a ribbon cutting at Horseback Miracles, the ZooMobile at the Brandon Library and a whole lot more!

If you're a subscriber, thanks for reading! If you're not, what are you waiting for? Give us a call at 582-9999 so you can be in the know of everything that's "Coming in Tomorrow's *Brandon Valley Journal*!"
